

Death In Impure Blood

PURE BLOOD IS LIFE.

IMPURE BLOOD IS DEATH.

It is absolutely impossible for you to be healthy and free from suffering and disease so long as your blood is impure. The blood is the fountain of life and it courses through every vein and artery, carrying either disease or health to every organ of the body. Impure blood deranges the entire system. The Liver, Nerves, Muscles, Heart, Kidneys, Bowels, Stomach, Brain, Joints, are all seriously and fatally affected by the poison of impure blood. Pure blood renders the system proof against the attack of infection, contagion and disease germs of every kind.

Beggs' Blood Purifier

IS THE GUARANTEED CURE

BEGGS' BLOOD PURIFIER immediately, positively and permanently cures Rheumatism, Scrofula, Kidney and Liver Troubles, Nervous Diseases, all Skin and Blood Diseases, etc., etc.

It tones up the entire body. It strengthens the muscles. It calms the nerves. It gives new zest and energy, and makes one feel young and vigorous again. It clears the brain and trebles your physical endurance and adds years to your life. It is recommended by physicians everywhere. You owe it to yourself and loved ones to try it, you will be thankful all your life. It does not matter how long you have suffered, how serious your disease may be, nor how many medicines you have tried without success, this honest remedy which has been upon the market for 25 years is guaranteed to cure even after all other medicines and physicians have utterly failed.

Don't despair, you can be cured, or **BEGGS' BLOOD PURIFIER** will not cost you a single penny.

Read These Letters of Endorsement From Noted Physicians and Druggists.

BEGGS' MFG. CO., Chicago, Ill.
Gentlemen: "It is not very often that a doctor ever induces patient medicine to take its full course. I have seen this in the case of a patient of mine who had been suffering from a skin disease for many years. He had tried every remedy known to man, but without success. I decided to try it, and from the first bottle I began to improve, and before I had taken three bottles I was entirely cured. I wish you the best of success with your wonderful remedy."
DR. A. J. CARPENTER, Neosho, Mo.

BEGGS' MFG. CO., Chicago, Ill.
Dr. J. W. Taylor for many years a leading druggist and apothecary in the town of Renfro, Oklahoma, makes the following statement regarding the curative powers of Beggs' Blood Purifier:
"That according to his experience in selling it to his many customers and the wonderful cures it has made right under his own personal observation, he became satisfied that without a doubt it is the best medicine of its kind ever put in a bottle."

BEGGS' MFG. CO., Chicago, Ill.
"I want to say to the public that by the use of your blood purifier I was completely cured of a scrofulous Cancer of three years standing, located on the right side of my nose. So when a customer asks me to recommend a blood purifier, I bring down Beggs' Blood Purifier and say, this took the Cancer off my nose."
S. C. HEIKONYMUS, Druggist, Bogert, Depot, Indian Territory.

FOUR AND HALF HOURS DEBATE

House Committee on Rules Arrange for Statehood.

DEBATE IS ON TODAY

Previous Question May Be Ordered on Marine Bill.

Washington, April 18.—The house committee on rules today agreed upon a rule providing for a four and one-half hour debate on the statehood bill, which is to be the subject of consideration Tuesday in the house. A rule also was agreed to which provides for the consideration in the house of a bill for a commission to investigate the subject of the merchant marine. By the provision of the rule the previous question may be demanded at any time during the consideration of this measure, the effect being that while debate is in progress it may be stopped at any time by the demand for the previous question. The consideration of this measure is to follow the statehood bill.

ACREAGE OF COTTON.

Report Made Up After a Careful Investigation.

Grand, O. T., April 18.—The secretary of the Commercial club at this place has prepared a statement showing the acreage of cotton that will be planted in the vicinity of Grand and the amount that will be ginned at this place provided a gin should be established here. The statement was presented after a thorough investigation. It is made up of reports received from the several localities and contains the names of the farmers who will plant cotton, and the amount that each will plant. Fully three thousand acres will be planted in the immediate vicinity of Grand. Should the town secure the promise of a gin that amount will be doubled. At a meeting of the Commercial club Friday night a committee was appointed to negotiate for a cotton gin and a ginner mill. Both may be run by water power. Grand has one of the largest and most powerful springs in the west and it is sufficient to run a ginner mill.

M. C. GARDNER IS POPULAR.

His Friends Deem Him an Orator of Great Power.

Edo, O. T., April 18.—Since Judge M. C. Gardner's speech at the Republican territorial convention at Guthrie last week, his friends at home express pride in his achievements. The events of the day:

The positive feature of the Republican convention last week was the speech of Judge Gardner of this county. When Charles Gardner's name was mentioned for a speech the convention went wild, cheering him to the echo. The judge spoke in his characteristic style, delivering his remarks and comments as few men can deliver them, and carrying the convention to the highest pitch of enthusiasm. It is needless to say that the speech was not only an intellectual treat but intensely popular. His associates of the Democratic were hailed with delight and storms of applause. In circulating among the delegates to the convention Gardner county people soon learned, with much

graduation, that Gardner is considered the best speaker in Oklahoma and has such a reputation in every home, however obscure, in the territory. Since his speech two years ago, Judge Gardner has rapidly grown in favor until he is now recognized as one of the foremost characters in the Republican party of Oklahoma. His sterling qualities are known and appreciated and his abilities rated as they are. In the days of Oklahoma statehood none will stand closer to the hearts of our people than Gardner, and whenever his name is mentioned, in connection with a position of honor or trust, it will meet with unanimous expressions of approval. Gardner county should be, and is, proud of Judge Gardner and in reality esteems him as her favorite son. Coming to our county, honest, educated, able, but poor, he took up his residence on the farm and was proud of his calling to till the soil. In connection with his inherited father he also conducted the Gardner general store, which proved a boon to the people of the Gardner vicinity in an early day. It is said that the best way to judge a man is by the estimation of his neighbors, and if any person who desires to form a correct opinion of Milton Gardner should go to Gardner and consult several thousand citizens and farmers who reside on the east side of the county. There you will find a spontaneous expression of esteem and good will and a people who know from experience and will attest the qualities of the man. This paper is proud of the record, achievements and attainments of Judge Gardner, and to the admirers of Judge Gardner, and to the admirers of the Oklahoma people, to say that he stands even higher at home than abroad."

DEATH OF DENNIS.

St. Louis, April 18.—Physicians who attended Major Hugh C. Dennis, president of the Rialto Grain and Securities company, when sudden death ended his connection with the case in which United States Senator J. R. Burton of Kansas was accused of bribery, stated today that Major Dennis' death resulted from continuous brooding over the conviction and sentence of Senator Burton. It was because of his connection with the Rialto company that Senator Burton was convicted. From the time of Senator Burton's conviction Major Dennis continually brooded over the case. Everything was done to divert his mind, but the clung tenaciously to it, demanding himself for having permitted Burton to become a representative of the company, until he died from congestion of the brain.

MIDLAND IS TO REACH WICHITA

Branch Likely to Run from Muskogee West.

GUTHRIE EXPECTS THE LINE

Planned Then to Be Extended to Wichita.

Guthrie, O. T., April 18.—Guthrie some time ago conceived the idea of becoming a great railroad center and she immediately set about getting the roads. She now claims to have eight roads. In spite of the fact that some of the larger roads are swallowing the smaller ones. The men who have the railroad interests of the city in charge have for some time been casting long glances at the Midland valley road. It seemed the most natural thing in the world for this line which it reached Muskogee to construct a branch, if not the main line, on west to Guthrie and continue on up the valley of the Cimarron in a northwestern direction. It now seems that the Midland company is determined to push on to Wichita, as the following from the Tulsa (I. T.) Democrat will show:

"The Midland Valley railroad is next akin to gas and oil wells. In the way of interest to Tulsa and community. This was the beginning of the project for constructing the Midland Valley. While building the line west to the Canadian river, a purchase was made of the Muskogee Southern, building southeast toward the same river. These two sections of road will be connected within thirty days or less and through trains will be run from connections with Missouri Pacific, Frisco and Kansas City Southern railroads, and at near Fort Smith to Muskogee."

"From the latter place contracts have been let for immediate construction of twelve miles of road northwest and the remainder of the distance between Muskogee and Tulsa will be let, and possibly as much as twenty-eight miles are already contracted for. It is this last part in which we are especially interested."

"A proposition is now up to Tulsa for the securing of the Midland Valley by way of this place. In substance, the road requires a bonus of \$25,000, one-half of which is to be paid when the road is completed from here to the Arkansas river, about three miles distant, and the balance paid across that stream, while the other half will be due when the road is in operation between Muskogee and Tulsa."

"The object in building the three miles from Tulsa to Arkansas river before the completion of the line from Muskogee to that point is no doubt to secure some of the construction of the bridge, and to have that expensive and difficult job finished by the time that the road is extended from Muskogee to the river."

"The Midland Valley will continue west from Tulsa to Wichita, Kan., and possibly further northwest, and it will build southeast from Fort Smith by way of Hot Springs until a gulf connection is reached. This will make a high grade, well built and an important trunk line, which would be of incalculable benefit to Tulsa, and as our citizens no doubt realize the full import of such a desirable railroad connection the bonus will most surely be raised."

TERMINAL CHARTERS ISSUED.

Guthrie, O. T., April 18.—Charters have been issued to the following corporations:

The Remulus Canning Factory company of Remulus, with a capital stock of \$100,000. The incorporators are W. E. Pennington, J. H. Hatcher, and J. H. Hatcher.

WHITE HOUSE READY.

Promptly at One O'clock President Will Press the Key.

Washington, April 18.—Tentative arrangements have been completed for the ceremony at the White House incident to the opening of the Louisiana Purchase exposition. It has been decided that the ceremony should take place in the east room of the White House at 1 o'clock on Saturday, April 30. The justices of the United States supreme court, the members of the diplomatic corps, the president and members of his family, and a few other guests, will be invited to be present.

A special telegraph loop will be run from the east room, affording a direct wire with the exposition grounds at St. Louis. Promptly at 1 o'clock President Roosevelt will press the key that will start the machinery of the fair. He then will exchange congratulatory messages with President Francis.

JEALOUSY THE CAUSE.

Woman Poisons Her Husband and Then Herself.

Ogden, April 18.—Mr. and Mrs. O. J. Stone were found dead in each other's arms in their room at a lodging house in this city. It is believed by the police that the woman first poisoned her husband and then herself.

Stone had refused to let her husband charge of his children by a former wife and this had been the cause of frequent quarrels between them. Jealousy of Stone's sister, who had charge of the children, is supposed to have been the cause of the woman's act.

Honors a Requisition.

Guthrie, O. T., April 18.—Governor Ferguson today recognized a requisition from the governor of Texas for the return to that state of Will Merrill, who is charged with stealing a horse in Armstrong county, Texas. Merrill is now under arrest and held in Washington county.

FREE MEDICAL ADVICE TO WOMAN.

Don't hesitate to write to Mrs. Pinkham. She will understand your case perfectly, and will treat you with kindness. Her advice is free, and the address is Lynn, Mass. No woman ever regretted having written her, and she has helped thousands.

Two military prisoners at Whipple Barracks, Prescott, Ariz., made a sensational escape by the aid of civilian confederates. The three took the guards' gun away, gagged him and tied him to a tree and then made their escape.

ington, Graham Burnham, E. Opydyke of Roubulus and R. Albright, of Oklahoma City.

The Avery Oil and Gas Company of Avery, with a capital stock of \$500,000. The incorporators are C. E. Lindley, E. T. Spinkharting, Wm. Delmer, D. Dineham, Oscar Hoy, R. Hoyt and G. W. Costello, all of Avery.

A notarial commission was issued to Louis Varian of Edmond, Oklahoma county.

WANT CIVIL SERVICE JOBS.

Thousand People Sought Positions in Court Building.

New York, April 18.—Long before day-light hundreds of sturdy men and muscular women formed in two lines at the Criminal Court building and stood for hours until the doors were opened and they were permitted to file into the building and register their names for civil service jobs.

By the time the sun was up fully one thousand applicants were in line; the men patiently awaiting their turn and the women striving by all manner of tricks to secure places of advantage. At first the women and men formed in the same line, but the arrangement was found not to work and Sergeant Walsh, of the Tomb, took the women into the building and formed them in line in the rotunda, the overflow stretching out into White street and up Broadway.

The men formed a line up White street and down Broadway for more than a block. Forty policemen were employed to keep the crowd straightened out. On the whole it was a good-natured crowd.

The value of promptness was appreciated by all for the jobs sought by the men and women, while coming under the Civil Service Labor Bureau, are not competitive save in priority of registration. The rule of first come, first served, prevails; hence the anxiety of the applicants to get up at the head of the line. The jobs sought cover a variety of labor, such as stenographers, clerks and helpers of many sorts. Willingness and strength are the main requirements for these places. It was nine o'clock before the clerk of the departments were ready to begin the registration. By that time 1000 men and women were storming the doors.

Chief Clerk Spencer, of the bureau, was in charge. When the doors were finally opened, a stampede of the crowd had exceeded bounds, and for a short time it looked as though there was to be a free-for-all fight, but the police quelled the disturbance and once more organized the line.

The first men to register was Bartholomew Hunt, of the Bronx, who walked every step of the way and arrived to constitute himself the head of the line at three o'clock.

COURT SCORES ACTRESS.

Jury Claimed That the Case Was an Outrage.

New York, April 18.—The jury in the breach of promise suit brought by Olga Landorff, an actress, against Franklin M. Oids, a retired lawyer of Newark, before Judge Wallace in the United States circuit court, brought in a verdict for the defendant.

Upon permission of Judge Wallace one of the jurymen then stated that the jury had been "hounded" and outraged to be forced to listen to a case of this character for several days. The jurymen asked that efforts be made that such cases be prevented from being taken to the courts for trial.

Judge Wallace, in his charge to the jury, said that it was a matter of congratulation to the bench at large that breach of promise suits seldom are presented for trial. He said that most were for purposes of blackmail, brought by some unscrupulous woman, sometimes against more unscrupulous men. There were cases, he said, however, where the defendants had trifled with the love and affection of the plaintiffs.

The jury was out but fifteen minutes, and brought in a verdict for the defendant.

One of the jurymen then rose and asked: "Your Honor, is it fitting that we add something to the verdict?"

"Yes," replied the court.

"We think that something should be done to prevent the trying of suits of this kind. The court and the jury have been humbugged and outraged by being forced to sit and listen to such a case as this, and our time has been wasted. Something should be done to deter such cases."

FLOWERS AT THE FAIR.

Special Attention Given Scientific Culture of Roses.

St. Louis, April 18.—The horticultural feature of the World's Fair has been most liberally treated. The importance of this department is fully appreciated when that fact is considered that horticulture alone brings millions of dollars to the florists of the United States. The sales of cut roses in the United States amounts to about \$5,000,000 a year; carnations, \$1,000,000; violets and chrysanthemums nearly \$1,000,000 each.

The World Fair exhibits 75,000 rose bushes in full bloom during the summer, while in the big conservatory of the horticulture palace flowers from every land may be seen. In various gardens are growing sweet jasmine of the south, the east of the desert and everything in the flower kingdom from the tiny sweet violet to the big blooming sunflower.

In another section is the greatest floral clock ever constructed. Its dial being 100 feet across. At night this floral beauty is illuminated by 100 incandescent lights while its 50-foot minute hand notes the passing of the hour. A sunken garden 35 feet long with its great masses of beautiful flowers is another feature of this greatest of all flower shows.

The wild garden, two acres in extent, on the western slope of Agriculture hill is a charming bit of natural beauty. The vastness of the flower gardens will be more nearly appreciated when it is known that more than 30,000,000 flowering and foliage plants were used in the embellishment of the landscape.

CAPITALIST LED WORKMAN.

Treasurer of Salt Trust Would Break Strike.

Chicago, April 18.—Mark Morton, treasurer of the salt trust, and brother of Paul Morton, president of the Salt Pans railroad system, had a gang of non-union workmen in an attempt to break a strike against the salt trust.

No member of the gang of stalwart foreigners was taller than the big capitalist, and none handled the heavy barrel of salt more easily. He set a fast pace even for those accustomed to manual labor.

Some of the men who had been with us for several years thought no one else could lead a barrel of salt," he said, "I am going to work here with those men until they are broken in."

Two military prisoners at Whipple Barracks, Prescott, Ariz., made a sensational escape by the aid of civilian confederates. The three took the guards' gun away, gagged him and tied him to a tree and then made their escape.

QUEEN OF ACTRESSES PRAISES PE-RU-NA

MISS JULIA MARLOWE.

In a recent letter to The Peruna Medicine Co., Miss Julia Marlowe of New York City, has the following to say of Peruna:

"I am glad to write my endorsement of the great remedy, Peruna, as a nerve tonic. I do so most heartily."

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoirs of nervous vitality. These centers become bloodless for want of proper nutrition. This is especially true in the spring season. Every spring a host of invalids are produced as the direct result of weak nerves.

This could be easily obviated by the use of Peruna. Peruna strikes at the root of the difficulty by correcting the

digestion. Digestion furnishes nutrition for the nerve centers. Properly digested food furnishes these reservoirs of life with vitality which leads to strong, steady nerves and thus nourishes life.

Peruna is in great favor among women, especially those who have vocations that are trying to the nervous system. Peruna furnishes the lasting invigoration for the nerves that such people so much need. Thousands of testimonials from women in all parts of the United States are being received every year. Such unsolicited evidence surely proves that Peruna is without an equal as a nerve tonic and a vital invigorator.

Buy a bottle of Peruna today. If you do not receive all the benefits from Peruna that you expected, write to Dr. Hartman, Columbus, Ohio.

\$10,000 forfeit if we cannot produce the original letter and signature of above testimonial which well demonstrates its full genuineness.

PART WAS DELAYED

Additional Particulars of the Sinking of the Ship.

WAS MUFFLED EXPLOSION

Gunner on Another Ship Thought It a Broadside.

St. Petersburg, April 18.—In the dramatic description of the sinking of the Petropavlovsk off Port Arthur wired from Liao Yang last night by a Russian correspondent of the Associated Press, a portion of the account referring to the sinking of the Petropavlovsk was delayed. It is as follows:

"Moving at reduced speed the Petropavlovsk came abreast of Electric cliff. The torpedo boats were entering the harbor when suddenly from the starboard side of the Petropavlovsk's bow a white column shot up.

"There was a double muffled explosion, and the whole flagship became covered with orange brown smoke. A gunner standing beside me, but through my binoculars I gazed speechless and horror-stricken. I could see fragments of wreckage falling from above the broken railing of the foremast and flames of fire shooting out.

"She's sinking! she's sinking!" yelled some one beside me.

"The Petropavlovsk began to settle slowly by the head, heeling far over to starboard, until her bow was under water. Her bow had already disappeared and my whole forehead was sinking. I could still see the conning tower. Then her smoke stacks disappeared. They seemed to fall through the water and the sea began to engulf the main mast. Her after turret, with its guns pointing skyward, quickly vanished; then her stern, with the port propeller still revolving. I could see figures desperately clutching at the slippery hull and tongue of flame. A last explosion and all was over. The flagship was no more.

"Boats from the torpedo destroyer Geydamak hurried to the scene of the disaster. It was forty minutes past noon in the morning.

EXTREME RESTRAINT.

New York, April 18.—The extreme restraint of Japanese rejoicing over the sinking of the Petropavlovsk is marked-

Photographs showing the New York State School for the Blind at Harvill, with the classes at work and the children at play, are among the educational exhibits at the World's Fair.

SCROFULA

Swollen glands, tumors, white swellings, sores, pustular or scaly skin eruptions, flabby muscles, brittle bones, weak digestion, emaciated, ill-nourished bodies, are some of the well-known earmarks of Scrofula. Scrofula is inherited. Parents too closely related by the ties of blood, or tainted with consumption or blood poison, may look for signs of Scrofula in their children. The middle-aged often have it, but children are the chief sufferers. Scrofula breaks down the vital forces, and the blood becomes so weak and poor that it does not nourish the body. The tendency in all scrofulous affections must be that which purifies the diseased blood, builds up the weak digestion, increases the appetite and gives new energy and strength to all life's forces. No medicine has won so much fame as a blood purifier as S. S. S., and its tonic effects upon the system are not equalled by any other remedy. It makes the weak, tainted blood rich and strong, and drives out of the circulation all tubercular deposits and morbid matter that cause the glandular swellings, sores, abscesses, tumors and other horrible symptoms that make Scrofula so dreaded and dangerous.

Write us fully about your case. Medical advice will cost you nothing.
